

Bloodwork in 3 Easy Steps

With the support of partnering physicians, this infographic was created by patients for you. This tool shows what to expect and what to do when you have a blood test at the hospital

Assessment

Blood taking

Test Results

1

Let your care team know of any conditions you may have (current medication, blood disorders)

2

You have the opportunity to learn more — **ask us** about bloodwork options

3

Ask us if you want to know more about your test results and what they mean to your care plan

Steps 1 – 3 often repeat

Scan code for more information | hospitalbloodwork.ca

You can ask for a paper copy of your test results or see them through your MyAHS Connect account
